ART. 2 ORGANISATION

The company Experience Me s.r.l., whose registered office is located in Via Durini 15, Milan, (hereinafter referred to as the Organiser) organises and holds Experience Lab. The names and graphic symbols that distinguish the event are registered trademarks belonging to the Organiser, which is thus the owner of all rights pertaining thereto. All and any publications that bear the title of the exhibition and that can be used in any way in conflict with the official publications are explicitly prohibited. All exhibitors hereby commit to make no reproductions of said trademarks except after receiving prior authorisation from the Organiser.

ART. 3 AIMS AND OBJECTIVES

It is the intention of the Organiser to create an opportunity for meetings and market interaction between producers and users of goods dedicated to the sector of beauty and cosmetics.

ART. 4 PLACE AND DATE OF THE EVENT

MiCo – Via Gattamelata, GATE 16, Milano

15 - 18 June 2022

The venue chosen for the event, the dates and the opening hours shall be determined by the Organiser, who reserves the right to amend them at any time, in compliance with Art. 10 of these General Regulations for 2022, without thereby creating any right on the part of the exhibitor to be freed from the contractual relationship and from the obligations deriving therefrom and to advance any claim for the payment of any damages and/or indemnity and/or reimbursement by the Organiser.

ART. 5 ELIGIBLE SECTORS

All companies that show goods of their own production and/or distribution in the sector covered by the event are eligible to take part in it.

ART. 6 APPLICATION FOR PARTICIPATION

The application to participate must be duly completed in every part, signed and stamped on every page and sent to the Organiser **no later than 30 January 2022** at the following e-mail address: office@experienlabmilano.com. The decision to accept the application shall be communicated to the aspiring participant after the Technical Committee has expressed its positive opinion (see the Criteria of Admission to the Event, which constitute an integral part of the application for participation). In any case, applications shall not be taken into consideration if they are not accompanied by the following appendices:

- General Regulations for 2022, duly signed;

- List of brands, with any necessary authorisations issued by the parent company;

- List of the more important points of sale.

The Organiser, acting in agreement with the Technical and Promoting Committee, shall evaluate the applications for participation received, on the basis of the information provided with said application, and shall send a written communication informing the applicant whether his application has been accepted, a decision which shall be at the Organiser's complete discretion. The contract of participation in the event shall be deemed to come into force between the Organiser and the exhibitor upon receipt by this latter of the said written communication with which the Organiser informs the exhibitor that his application for participation has been accepted.

The contract of participation in the event shall comprise the application for participation, these General Regulations for the 2022 Event, the List of Brands and the List of points of sale. No later than seven (7) days after the exhibitor has received said notification that his application for participations has been accepted, said exhibitor shall make a payment on account to the Organiser of 30% of the total participation fee.

ART. 7 ASSIGNMENT OF STANDS

The assignment of the stands shall be the exclusive and discretionary competence of the Organiser. Any special requests formulated by exhibitors while presenting their application for participation shall be construed as purely indicative and shall not commit the Organiser in any way, nor may they in any way influence the said application for participation.

ART. 8 CONDITIONS OF PAYMENT

The following payments shall be made to the Organiser in consideration of registration for the event and concession of the area allotted:

a) **30% of the participation fee no later than seven (7) days after the exhibitor has received the notification that his application for participation has been accepted by the Organiser.**

b) the balance of 70% of the participation fee no later than 15 FEBRUARY 2022.

Should the participation fee payment be imprecise or delayed or fail to be made at all in accordance with the methods and conditions specified in the preceding paragraph, the contract of participation in the event shall be considered legally null and void, save the right vested in the Organiser to retain all and any payments as shall have been made by the exhibitor to date as a penalty and to demand in any case the payment of the entire participation fee.

ART. 9 RENUNCIATION OF PARTICIPATION

Exhibitors who do not intend to take part in the event shall give notice of their intention to the Organiser by means of a registered letter with reply coupon attached or of certified e-mail sent to the address experieceme@pec.it or, should such services not be available in the jurisdiction where the exhibitor has his registered office, by means of the most reliable method available no later than 28 FEBRUARY 2022. In such cases, regardless of the reason given for withdrawing from the event, exhibitors shall not be entitled to the repayment of sums already paid, nor to any reimbursement and/or indemnity. Should any exhibitor provide said notice after 28 FEBRUARY 2022, it will not be entitled to receive any reimbursement of the paid sums and, in the event that exhibitor failed to pay in whole or in part the participation fee, the Organiser shall be entitled to demand full payment thereof. In such a case of withdrawal from participation in the event, the Organiser shall be free to dispose of the space assigned to said exhibitor.

Art. 10 – POSTPONEMENT, REDUCTION OR SUSPENSION OF THE EVENT

The Organiser reserves the right to act as his own complete discretion for technical and/or organisational reasons to alter the dates when and the place where the event is to be held, to suppress any parts of the event, to reduce the exhibition spaces and to cancel the event entirely, without this generating any liability on the part of the Organiser to pay any damages and/or reimbursements of any kind whatsoever. Should the Organiser change the place where the event is to be held, this shall generate no entitlement on the part of the exhibitor to withdraw from this contract and to claim reimbursement of the participation fee paid. If the exhibitor has not yet paid the participation fee for the event, either in part or in full, the Organiser shall be entitled to demand payment thereof. Should the Organiser change the dates when the event is to be held, the participation fee paid shall be attributed to the new dates and, should the exhibitor has not paid the participation fee in whole, the Organiser shall be entitled to withhold the amount already paid and request the payment of the outstanding amounts due. Should the exhibitor decide not to attend the event at these new dates, he shall send a written notification to the Organiser by means of a registered letter with reply coupon attached or of certified e-mail (sent to the address experieceme@pec.it) or, should such services not be available in the jurisdiction where the exhibitor has his registered office, by means of the most reliable method available no later than ten (10) working days after receiving the notification of the change of date when the event is to be held. For his part, if the Organiser has received this notice of cancellation within the deadline stipulated, he shall return 70% of the participation fee paid to the exhibitor, retaining the remaining 30% to cover the expenses of organisation sustained.

Should the event be cancelled in its entirety due to force majeure event that renders the performance of the event impossible, challenging or unprofitable, the contract of participation in the event shall be deemed null and void, save the Organiser's right to receive the reimbursement of the costs of organisation sustained, which shall be calculated on the basis of a flat rate of 30% of the participation fee. Force majeure event means a reason of force majeure, including accidents, fires, explosions, pandemics, floods, strikes or job demonstrations, ousters, sabotage, public unrest, wars, insurrections or civil wars, sieges, restrictions on authorities, inability to procure material or to take means of transport. All exhibitors shall take out an insurance policy specifically for the purpose of furnishing third-party liability coverage for any damages as may be caused by their own staff to persons and/or to property. It is hereby understood that the Organiser and the proprietor of the exhibition venue may under no circumstances be held liable for all and any damage to persons or property as may be caused by the exhibitor or by the exhibitor's staff, nor for cases of theft or of loss of goods belonging to the exhibitor that may occur before, during and after the event. The Organiser may not be held liable for damages caused by any failure to deliver the exhibitor's goods, or by any delay or other occurrence brought about by force majeure, such as, purely by way of example, natural disasters, strikes, restrictive provisions issued by public authorities or other circumstances beyond its control, or any acts carried out by third parties or the exhibitor. The exhibitor's signature applied to these General Regulations 2022 constitutes a declaration and acceptance of liability for all direct and indirect damage as may be caused by the exhibitor or his staff to the persons and/or the goods employed in the exhibition venue, and thus the commitment on the part of said exhibitor to indemnify the Organiser and relieve him of all and any claim, request, demand for compensation or legal action as may be brought against said Organiser by the proprietor of the exhibition venue and/or by third parties.

BRAND EVALUATION CRITERIA

Experience Lab aims to give visibility to excellence and high quality products from the sector of Beauty Excellence, Toiletries, Cosmetics and Make-Up.

Experience Lab wants to be recognized as an international point of reference for all of the brands presenting themselves for the quality of their offerings and their marketing choices, and their distinctive distribution of Beauty Excellence.

The purpose of Experience Lab is to create a meeting opportunity for the producers, therefore only the parent companies are authorized to exhibit.

Whether a distributor - and not a producer company - applies, the application must enclose the authorization to exhibit with the signature of the parent company.

In order to realise an exhibition that shows the most peculiar offerings in the sector and which is also able to give opportunities to new creative realities aspiring to enter this field, the following criteria have been defined by the Technical Committee:

Qualitative - Artistic Criteria

- The **image and the philosophy** of the brand should be based upon **a credible and documented history**, which translates into products and compositions expressing **quality** and **artistic** characteristics, as well as those of **uniqueness** coherent with a declared affiliation with Beauty Excellence.
- The creations must display an **aesthetic-stylistic coherence** so that every single product can be recognised as belonging to the brand's graphic design scheme.
- The brand must offer creations of high artistic, qualitative and stylistic value, to be sold through **assisted sales** and not self-service.
- The brand's offerings must be **directed toward consumers** seeking creations of great originality, character and quality.

Distribution Profile Analysis

- The brand must be proposed in **European and Extra-European markets** through an extremely **selective and high quality distribution** network in order to maintain its peculiarity.
- The quality and selectivity of the distribution must be homogeneous in every country in which the brand is proposed.
- Its **market share** is not greater than **0.2%** of the overall turnover in the beauty sector in the individual countries in which it is found.

Information and development of the distribution network

The concession holders must be able to offer precise information on **history, philosophy** and **quality** of the products, in order to communicate these competently and correctly to the end user. **The related hard copy, digital or online documentation must be provided to Experience Lab.**

Selection procedure for the definitive list of exhibiting brands to be submitted to the Technical Committee

The Organizing Committee composes a list of the brands to be submitted to the Technical Committee according to the following steps:

1. A list of all of the brands that have applied for admission to Experience Lab is gathered.
2. The Organizing Committee will compose a list of the brands that have applied for admission and will divide the brands into three categories:
 1. New Brands
 2. Brands attending the previous editions
3. Incomplete applications could be considered if properly integrated within January 31st 2022 and could be presented to the Technical Committee along with any new application submitted after the deadline, in case of justified delay. In case of positive evaluation, the definitive list will be updated with the eventual new entries.

Brands attending the previous editions

- The brands that already attended the previous editions of **Experience Lab** will be screened by the Technical Committee with no need to resubmit the samples of the products, but only through the examination of all the documents concerning the selection criteria (the Self-Assessment Form). Possible further requests of samples and documents will be done just in case that one or more members of the Technical Committee should no longer consider the brands in line with the selection criteria of the event.

EXPERIENCE LAB EXECUTIVE AND ADVISORY BODIES

Organizing Committee

Duties

The Organizing Committee is responsible for the ideation, planning and realisation of Experience Lab, with the assistance of the organisational team.

The Organizing Committee performs the following activities:

1. **Defining the criteria for the choice of brands admitted to Experience Lab:** The Organizing Committee defines and proclaims the criteria that are followed for the selection of the brands that will be admitted as exhibitors at the Experience Lab. So as to implement the criteria over time, taking into account the evolving reality of the sector, the Organizing Committee will coordinate a series of meetings and encounters on this theme with the representatives of the brands. These proceedings, composed of free critical expression and opinion collection are held to be essential in order to harmonise the criteria, based on suggestions considered of importance for an improved definition of the sector involved, to which the exhibition will be directed.
2. **Constitution of the Technical Committee and assignment of members:** With the first definition of the criteria, Experience Lab completes an important step toward its main objective: to become an authoritative international appointment dedicated to all of the brands and distributors of Excellence Beauty. For a more appropriate application of the same, the Organizing Committee will make use of the consultancy of a Technical Committee.
3. **Proposal of the temporary and final brands list:** Having received the forwarded applications from the brands who manifest their intention to participate in Experience Lab, the Organizing Committee will take on the compilation of a **list**, made up of all the brands that correctly applied, according to the categories *New Brands and Brands* attending the previous editions. Once defined, the **list** will be forwarded to the Technical Committee, which will express its judgment. The Organizing Committee will draw up the official **list** on the **unquestionable** assessments made by the Technical Committee.
4. **Evaluation of the brands:** concerning not-admitted brands, once the list referred to in point 3. has been published, the Organizing Committee will be available, before the edition of Experience Lab, for an assessment on those applications that were not considered due to late delivery or incomplete data. This will be an opportunity, for excluded brands, to integrate incomplete applications or justify the delay in the submission.
5. **Judgment of the brands:** the assessments made by the Technical Committee is unquestionable.
6. **Ideate and manage the activities and initiatives addressed to the public visiting the exhibition.**

Technical Committee

Duties

The members of this team will have the duty of expressing a judgement on the **list**, which gathers all of those brands that can be admitted to the event.

In particular they will have to express themselves defining:

1. Brands admitted to Experience Lab
2. Brands **not admitted**

Composition of the Technical Committee

The members will be Italian, European and Extra European distributors and retailers, chosen unquestionably by the Organizing Committee. **5 candidates** will be selected in the attempt to form a representative panel capable of expertly expressing itself concerning the provisional brands list, which gathers admitted and not-admitted brands, transmitted by the Organizing Committee.

The role of President of the Technical Committee will be fulfilled, in rotation and with an annual term in office, by one of the members of the Organizing Committee.

Each component selected who will then confirm his or her availability to take part in the Technical Committee, will be asked to express his or her opinion filling up the specific form and sending it back to the Organizer by email or fax. There will be a limited period of time in which each member may deliver his or her judgment on the preliminary assessment of the Organizing Committee.

Each member will have free access to the documentation provided by the brands and will receive the documents and samples of the brands that will attend Experience Lab for the first time.

The list of the candidates among whom the members of the Technical Committee will be selected will be published, but the names of the members who will be awarded memberships will not.

For each member of the Technical Committee, at least one substitute member will be identified in order to replace the official member with immediate effect in the event of his/her resignation or forfeiture of the office after the terms agreed and defined in the letter of designation.
